

# WEEK 2

# HOMEWORK 4

This outline is a work-in-progress, and may change in the future – [medatech@medasf.org](mailto:medatech@medasf.org)

## DESCRIPTION

Complete the first FreeCodeCamp project.

- (1) Create a folder in your repository and name it “*projects*”, inside of this folder create another folder and name it “*tribute*”.
- (2) Read the requirements of the [tribute project](#) on FreeCodeCamp. Please note you will **only** be using HTML, CSS, and Google Fonts for this project, even though the paragraph mentions other technologies you can use. Take note of User Story #8, it involves a small amount of responsive design.
- (3) Check out the CodePen example to see the layout you will be creating. Take notes on how the layout is split up.
- (4) Explore people of the past that you found heroic. Choose one person to focus on your tribute web page. Please note, the person cannot be currently alive.
- (5) Create an HTML and CSS file inside of the tribute folder, call it “*index.html*” and “*main.css*”. Build out the layout for your tribute web page.
- (6) Look at the Grade section to see what requirements are needed for your tribute project web page.

## DUE DATE

The due date for Week 2 – Homework 4 is **Tuesday November 10, 2020 9:00AM**.

## FILE SUBMISSION

Please make sure your HTML and CSS file is located in your repository under the directory “*projects/tribute*”. Add/commit/push by the due date.

## GRADE

For every item on the list that your project is missing, the grade will be reduced by the corresponding percentage. The weight of this project is **three times** the normal homework assignment. Not submitting this homework counts as three missed homework assignments.

- ➔ The web page meets **all** of the Project's User Stories (refer to the FreeCodeCamp project page). If missing, reduce 15%.
- ➔ The HTML and CSS file passes the W3 HTML Validator and the W3 CSS Validator. If missing, reduce 20%.
- ➔ The web page uses the HTML5 elements *header*, *main*, and *footer*. If missing, reduce 5%.
- ➔ The web page does not use any browser styles, this includes the font *Times New Roman*, *Arial*, and *Helvetica*. Use *reset.css* to help you achieve this. If missing, reduce 10%.

For every day that the project is late, reduce by 10%.

Extra Credit: The website does not use any grayscale colors, including white and black, anywhere on the website. Add an extra 5%.

## NOTES

---
